WORK IN RAIL

DRIVE YOUR FUTURE

WHY WORK IN RAIL?

1. **A vital and sustainable industry.** Rail is the safest, most efficient form of land transport. It eases congestion on our roads and reduces emissions. It connects people safely and improves communities everywhere.
2. **Build skills for life.** Our talented people solve complex problems everyday as they adopt (and pioneer) technological innovations. You will gain valuable skills that will advance your career and support you in life.
3. **A progressive and inclusive culture.** We welcome people from all walks of life and want to empower the next generation of rail leaders. Your creative ideas may lead to the next innovation in rail!
4. **A career full of variety.** Whether you've just left school or have years of experience in a different industry, the options are endless. There are so many roles to explore and innovative projects to get involved in.
